HOW LANGUAGE GOVERNS RESULTS

Seven cue-words which can move you from fear to control

Greetings!

It becomes clearer, every day, that we, the people of England, are being harassed by state agents, usually employed by corporate entities, when it comes to harvesting what imagine is 'money'. If we are unsure of where we stand when these bullies confront us, there is only one result, we will crumble and they will think they are securing their commission. Here are seven cue-words to help us all change our position from anxiety to authority... The actual words we use are SO important. **Let's learn the blue text off by heart. The day may come when we will all be glad we did.**

1. NOTICE:

"I AM giving you verbal NOTICE that I have withdrawn your right of access to this property. You are now a trespasser! Please leave immediately!!"

If they persist, the next cue-word is

2. JURISDICTION:

"Before we go any further, I need to establish your jurisdiction. Are you acting as either a public servant or a private contractor on behalf of a corporation?"

By this second cue-word, we can shift their level of thinking from 'woolly bully' to 'Am I the one in trouble here'. Without their 'corporate cloak' they are just one

wo/man standing alone: no veil of anonymity just personal accountability. Let's look at our next stepping stone to strength.

3. PROOF: Allegations are easy, where is the evidence?

"I require real proof. Where is the original wet-ink signature on the original warrant? A digital imprint on a piece of paper is NOT a lawful authority to do anything."

4. LIABILITY:

"If you go ahead and enter this property, you are accepting full liability for any damage or trauma caused. I AM recording this for evidence in a future claim."

So, we stand our ground in our search for true evidence, we look them straight in the eye as we move on to cue-word five.

5. DISHONOUR:

"I have requested (hopefully three times) - (remember the Rule of Three: this rule is as old as the Romans who practised it. Dust off your old family bible and take a look at the Gospel according to John, 18:3, 19:4 and 19:7 where the Roman governor stated three times that he found no fault in the Messiah under examination) that I am shown the invoice /contract/agreement which you (or your corporate employers) have failed to provide. Therefore, there is no lawful debt!"

[Note; under the Bills of Exchange Act (1882 in the British Isles, later dated in other lands) if a financial claim or instrument cannot be properly evidenced it puts the party into dishonour. Now, the emphasis is not on enforcement, it is on **validity.**]

6. GDPR -(General Data Protection Rule)

"I did not consent to you or you corporate employer processing my data: under GDPR I AM requesting your Data Protection officer's

detailed proof that you have a lawful basis to hold (or withhold) my information without my consent”.

Administrative note here: the fact that data processing rules have perhaps not been followed gives us another pressure point against what the oppressive corporate is trying to force onto us.

7. CONTRACT: All else rests on this one word, more than a cue-word.

“Show me the contract which binds me. I have no agreement with company/corporation/council ‘XXXXX’ and without a contract you or they have no claim”.

Everything comes back to agreement, because, without it, what is binding anyone?

SUMMARY: Language defines Position: Position defines Authority: Authority holds, only if it is not questioned.
